Ms. Bowers – how is this being advertised? Mr. Williams – NCBA did a letter of support and scheduling a call with the race promoter; Mr. Heid – spectators would be great too; Ms. Bowers – any fire house/EMS on our end? 8. Resolution to Create a part-time position year round at the Transfer Station – Supervisor Bean – it is in the budget; have had conversations with all and Pete Olesheski; Mr. Olesheski – previous Board and I discussed the desire to expand the transfer station hours, which we’ve done and do other work; there are concerns with our recycling program, cross-contamination, scale installation; start part-time in April/May; could work along current attendant to learn; it was budgeted \$15,000 – put it out at \$16/hour 2-3 days a week; it’s something that I think is necessary and see if it would need to be full time depending on upgrades at the transfer station; will meet with the Committee to discuss; this is the first piece of the puzzle; Ms. Bowers – so having the scales installed will help with revenue? Mr. Olesheski – yes, another set of eyes; the Town needs to think about how we engage with our residents, the use of the recycling and regular trash; increase the good recycling, cutting costs; that’s my opinion; Mr. Heid – jumping the gun prior to the scales getting there; the whole transfer station will need to be reorganized; Pete Hoskins – there’s more questions than answers, I’ve gone through a year’s worth of invoices and it should be done; May/June we’d be ready to make changes; Mr. Olesheski – I’m looking to advertise at this point; we may find that \$16/hour is not going to be sufficient; let’s advertise, see what we get; Janet Konis – we’re advertising for a position that we may not fill; Mr. Williams – if we have someone fill in for 6 days a week when the attendant is off; we’re behind in revenue at this point; free garbage is great, but then lets look at the details; as I look at this – if this position is going to have a very clear job description and plan, help educate them, improve our system; need to do a better job with what we have there; Ms. Bowers – concern with days closed? Mr. Olesheski – there has been in the past to have two consecutive days closed; mixed feelings on the success of the open on Mondays (especially with it being a Holiday); Mr. Olesheski – I understand where you’re coming from Mr. Williams; when it comes to the Monday holidays – I have nothing but full-time employees at this time; it’s either another day off, or double time and a half for Holiday pay; almost \$400 for a holiday to pay another employee; a part-time employee can fill in these days, I don’t have to pull someone else from buildings or parts to put them at the transfer station, I will have built in coverage; another benefit to create this position; Mr. Williams – I have no problem with it being open on Mondays; Ms. Konis – why can’t we use the other part-time employees for coverage? Mr. Olesheski – we could from May – August; Ms. Sabattis – that’s the busiest time; Mr. Olesheski – ski season is a busy time with rentals. Town Clerk asked for clarification regarding the Resolution – Mr. Williams asked to have the wording “the position will allow expanded hours” removed from the Resolution.

- Meeting with the Parks Committee- discussed various overlap, areas for improvement in ORDA's operation with the Town and what the Town does.
- Water Committee – Supervisor Bean and myself met with several other key personnel who are involved with the questions of the deficiencies within the Department; hoping to bring some new regulations forward to the water district; Ms. Konis – new pricing will it take care of the problems, budgets? Mr. Stevens – nothing final as of yet.
- Ski Bowl Mitigation Project - waiting for better weather; Supervisor Bean the power source for the dump is not in conduit; this is concerning; National Grid was not completely aware of this, they will do a re-do to the power supply to the transfer station and the lodge; will then be able to fix the trench.
