## Section 650 - Wells

- A. Prior to commencing to construct or drill any private well, a "Town of Johnsburg Water Well Construction Permit" shall be issued by the Zoning Enforcement Officer
- B. The well must be located at least ten (10) feet from any property line. The centerline of a well shall, if extended vertically, clear any projection from an adjacent structure by at least five (5) feet. Each private well shall be located a minimum of 25 feet from the normal driving surface of any public roadway or a minimum of 15 feet from the road right-of-way, whichever is greater. A suction line or well shall be located a minimum of 50 feet from any septic tank or septic system distribution box, and 100 feet from any septic absorption field.
- C. If a 100-foot radius drawn around the well extends beyond the applicant's property lines, the applicant must provide proof that every affected abutter has been notified by certified mail of the applicant's intention to install a well.
