COMMITTEE REPORTS:

OLD BUSINESS:

Supv. Thomas updated the Town Board on the memorandums of understanding between the Tall Timbers project developers and the North Creek Water District and the North Creek Fire District. Supv. Thomas explained that Mr. Goodspeed and he had met with Tall Timbers personnel and asked that Mr. Goodspeed update the Town Board. Mr. Goodspeed noted that as a result of meetings over the past few months that a preliminary memorandum of understanding had been worked out between the North Creek Water District and Tall Timbers over their entry into the water district; the agreement was to cover the costs of the connection of the development to the district. One of the costs was to be the turning over to the water district of two productive

wells which are on a separate aquifer from the district's current wells. Town Attorney Jordan added that Tall Timbers needed to send him some additional information prior to the memorandum of understanding being ready for action by the Town Board. Mr. Arsenault asked about the capacity of the wells; the expected capacity is approximately 85 gallons per minute of which the Tall Timbers Project would need 40 to 45 gallons.
