Supv. Thomas asked Mr. Goodspeed to explain where the current position of the NIPA process for the Ski Bowl Park regarding the lifts, trails, lighting and snowmaking. Mr. Goodspeed explained that contrary to primary indications the Adirondack Park Agency (A.P.A.) has now said that while the lift and snowmaking are non-jurisdictional that the ski trail and lighting for night skiing will probably require A.P.A. review. There are pictures of the ski trails at the park area and this may resolve the questions on that issue; Town Attorney Jordan asked that anyone with pictures of the tubing park in operation at night with the lights on to please forward them to the Town Offices to be used in showing the current light condition. Ms. Andrea McKee said that she had some photos and would forward them the next day. Mr. Goodspeed said that this lead to a separation from the Front Street N.I.P.A. which is a positive outcome.

Mr. Stevens explained that Warren County has received a grant of approximately \$9,500.00 for paving at the Wevertown Community Center to increase parking at the building. Using Town Highway employees the area to the north side and rear of the building will be leveled, catch

basins installed, the area will be paved and some additional lighting will be installed. Supv. Thomas noted that a short form State Environmental Quality Review (SEQR) regarding the paving project. This resulted in a determination of no adverse impact and a negative declaration to be filed.

Supv. Thomas informed the Town Board that the well at the Wevertown Community Center has dropped to 22" or less. Supv. Thomas suggested using some of the \$25,000.00 which the Town Board had planned to use for paving; the suggestion was made by Mr. Stevens to cover the north parking area with Item #4 and pave the south side which will have handicapped accessible parking and to use the money saved for drilling a well. It was estimated that if this was done the amount available for drilling a well would be \$18,000.00. Mr. Richard Armstrong asked if the gasoline contamination from the adjacent property would be a problem. Supv. Thomas said that following the cleanup of the property that the Town received reports from the Department of Environmental Conservation on a regular basis until the report came back as clear for a number of periods. Mr. Stevens suggested asking Engineer James Hutchins to look for a well site on the property and not in the parking area. Also the Supervisor's Office would attempt to obtain estimates of the cost of drilling a well.

Supv. Thomas noted that the bids for the Municipal Dump Body and Hoist Package had been opened earlier in the meeting. The bids received, in order of receipt, were from T & T Sales, Inc. in the amount of \$15,727.00 and Arrowhead Equipment, Inc. in the amount of \$14,780.00; Supv. Supv. Thomas recognized Secretary Cherie Ferguson to report to the Town Board on Vandalism and safety issues at the beach area. Ms. Ferguson informed the Town Board that there have been 3 arrests made following an investigation of vandalism at the beach area and along the Carol Thomas Walking Trail from an incident occurring in late April of this year; further damage was found on July 25, 2007. The total cost to the Town to repair these acts of vandalism is approximately \$1200.00 with the July 25th event costing about \$244.00. The sheriff's department has indicated that it will step up patrols in the area. Ms. Ferguson explained that a boat had been donated to the town beach for use by those using the beach area. When this use request was relayed to the insurance carrier for their input they replied that a use of this type would require specific oversight, sign up and personal flotation devices for those using the boat. As a result of this discussion with the insurance carrier the boat has been removed. Mr. Goodspeed reminded the board that his suggestion of adding boating or kayaking to the beach area was as a part of the Summer Youth Program.

Supv. Thomas recognized Ms. Andrea McKee, chairman of the Ski Bowl Park Committee, to discuss park related issues. Ms. McKee informed the Town Board that the Ski Bowl Park Committee misunderstood that while the Town Board had discussed the idea of boats at the beach area that no resolution had been made regarding the implementation of such a project. Ms. McKee added that she along with Mr. Marco Schmale were trying to track down those responsible for vandalism at the park; she added that Kate Hartley, director of the Art & Nature Camp had referenced studies that mural painted walls are less susceptible to vandalism than unpainted walls. Mr. Donald Walp asked if the Town Board would consider it prudent to offer a

reward in connection with the vandalism; Town Attorney Jordan answered that in his opinion it was not legal for the Town Board to offer a reward. Ms. McKee informed the Town Board that the Ski Bowl Park Committee was basically done for the season in trying to make improvements in the beach area; however, the committee requested permission to put web-cams in the pavilion and also to install a computer to play music. Supv. Thomas said that he did not have a problem with changing items approved but not the budgeted amount; Mr. Arsenault agreed with Supv. Thomas, but noted that insurance and procurement policy compliance are important. Mr. Arsenault suggested communication between the committee and either the Supervisor or the Town Board committee members. Mr. Goodspeed said that the Town Board has the fundamental responsibility for the expenditure of Town funds and to continue to receive good audit reports the procurement policy needs to be followed, he added that the addition of small, inexpensive items can change materially the look of the park or beach. Ms. McKee and Supv. Thomas said that they were trying to limit the need to take up Town Board time to cover the items discussed in the Ski Bowl Park Committee meetings. Mr. Goodspeed suggested that the Town Board receive copies of the committee's minutes for information; this seemed to be a possible solution. Ms. McKee informed the Town Board that the Master Gardener group had worked on the triangle area and were creating separate gardens and soliciting individuals or businesses to take responsibility for each garden. The master gardener group said that it would cost approximately \$500.00 to get water to the triangle. Ms. McKee also informed the Town Board that the Youthworks group left as of August 4th; the group left several items stored in the pavilion above the utility room. Supv. Thomas thought this would be acceptable.

Supv. Thomas recognized Secretary Cherie Ferguson to report to the Town Board on several issues relating to the Tannery Pond Community Center. Ms. Ferguson had received three quotes regarding the cleaning of the carpets at the Tannery Pond Community Center. The three quotes are as follows: North Country Janitorial \$1048.52; Hutchins Pro-Clean \$1474.85; Best Carpet & Upholstery Cleaning \$500.00. RESOLUTION NO. 226

Mr. Stevens presented the following resolution and moved its passage with a second from Mr. Arsenault to authorize the acceptance of the quote from Best Carpet & Upholstery Cleaning in the amount of \$500.00 as the lowest responsible quote pursuant to supplying satisfactory references and failing that to authorize the acceptance of the next lowest quote. With all members voting in favor the resolution is declared carried. Ayes-5 (Arsenault, Goodspeed, Stevens, VanKeuren, Thomas) Nays - 0

Ms. Ferguson explained that the heating system (H.V.A.C.) has received a replacement chip in the computer and it took 1 and 1/2 days of labor to identify and correct the damage. The technician did not feel that there was a need for the telephone line to be reinstalled and therefore she did not order the line to be reinstalled as the Town Board had allowed at the previous meeting. Ms. Ferguson added that currently that there is still no surge protection in the building.

Ms. Ferguson informed the Town Board that at 4:00am on July 20th there was a fire in the elevator motor at the Tannery Pond Community Center the technician said that the damage to the motor causing the fire was linked to the lightning strike which damaged the H.V.A.C. system.

The insurance carrier has been notified. The Town has not yet received an estimate of the cost to repair the damage.

Ms. Ferguson added that a sprinkler inspection on the Tannery Pond Community Center sprinkler system; the cost of the inspection is \$200.00 and she is looking into an annual inspection contract. Ms. Ferguson added that Foresight Electronic Monitoring Systems had supplied a quote for an annual inspection of the fire alarm system in the following Town buildings: Town Hall, Highway Garage and Tannery Pond Community Center at a total cost of \$505.00 per year. Supv. Thomas asked the Town Board to allow him to sign the contract with Foresight Electronic Monitoring Systems for an annual inspection of the aforementioned Town buildings.

The costs quoted were as follows: Town Hall \$3900.00 and Tannery Pond Community Center \$4250.00 for a total of \$8150.00. This estimate does not include any surge protection; Mr. Goodspeed suggested asking the Town's insurance carrier or an electrical contractor to recommend a dealer with a comprehensive surge and lightning protection system. Ms. Ferguson will do more research into this matter.

Supv. Thomas informed the Town Board that the Town will be receiving an additional \$9,947.70 in additional Occupancy Tax funding; there are two open contracts which will receive funding as the Town Board had agreed to fund their requests in full if additional funding was made available to the Town. Dept. of Environmental Conservation (D.E.C.) has responded to the request by the Town to assist in investigating various septic system complaints in the town. The D.E.C. suggested asking the Warren County Building & Code enforcement office and they had informed the N.Y.S. Dept. of Health of the problems. The D.E.C. also suggested that Dr. Rugge use the nuisance law and request assistance from Warren County; this is the plan of action which it is expected will be followed.

Supv. Thomas informed the Town Board that State Senator Elizabeth (Betty) Little requested that the Town Board consider passing a resolution suggesting that the water towers in the town would be a preferred site for cell towers.

RESOLUTION NO. 228

Mr. Arsenault presented the following resolution and moved its passage with a second from Mr. Goodspeed that the Town Board of the Town of Johnsbury considers the water towers in the Town of Johnsbury located on tax map parcel numbers (83.-2-46 and 66.-1-21) to be the preferred sites for cell towers in said Town. Thomas asked if the Town Board wished to act upon the request read earlier in the meeting from Justice Carl vonCzoernig requesting that the Town Board authorize purchase of a second hand air conditioner for the justices' chambers in the Wevertown Community Center in consideration of the excessive heat in their chambers. Mr. Goodspeed asked which fund the purchase would be made from and Supervisors' Secretary Cherie Ferguson answered that it would be the buildings account.
