

NORTH CREEK FIRE DISTRICT EXTENSION

SEQRA SHORT ENVIRONMENTAL ASSESSMENT FORM

Part 1, Question 1 – Narrative Description

The North Creek Fire District (“Fire District”) was duly established by the Johnsburg Town Board to serve certain areas of the Town of Johnsburg and the North Creek Fire Protection District (“FPD”) was duly established by the Town Board to serve other areas of the Town of Johnsburg. The Town has entered into a contract with the Fire District to provide fire protection services to a certain portion of the FPD (the “Extension Area”) for many years. The Town Board has now determined that it would be to the mutual benefit of the Town and the Fire District and in the best interests of the Town, the FPD, the Fire District and those persons and properties within the Extension Area for this area to become part of the Fire District and no longer be included within the FPD. In order to make these changes, the Town Board needs to (1) alter the boundary of the FPD to exclude the Extension Area pursuant to Town Law Section 172-c, and (2) extend the Fire District to include the Extension Area pursuant to Town Law Section 170(2).

The purpose of the Fire District extension is to create greater operating efficiencies, provide better service to the public and generate cost savings by avoiding duplication in administrative services. As the Fire District is already providing service to the Extension Area pursuant to a contract with the Town, extension of the Fire District is not expected to have any effect on the environmental resources in the Town.

Part 3 Determination of Significance**

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.	
<input type="checkbox"/> Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
